About IITs

The Indian Institutes of technology (IITs) are at the heart of driving India's research capabilities and thrive on their quality education and strict selection criteria. Currently, there are 23 IITs in India.

Each IIT is an autonomous institution, linked to the others through a common IIT Council, which oversees their administration. These institutes are equipped with the best laboratories and

research tools.

The alumni of these institutions are excelling not only in the core sectors of the engineering, but they are very distinguished names in the areas including politics, administration, management, economics and environment.

Why do a PhD in India (at IITs)?

India has a strong focus on science and technology with vast research and development infrastructure. It's the third-largest scientific and technical manpower pool with many world-class, internationally ranked universities awarding more than 40,000 doctorates annually. A nation of immense diversity which is reflected in its rich culture and heritage.

- IITs impart world-class education and conduct research in the relevant fields and further advancement of learning and dissemination of knowledge.
- Offering high-quality education and research with a chance to immerse oneself in the stimulating diversity of culture, language, religion, art, architecture, literature, music and dance that can equally boast of an unparalleled civilizational heritage and a modern global outlook.

Here are a few reasons to consider doing PhD in India (at IITs)

- Provide cutting-edge and interdisciplinary research in science and technology
- Outstanding research facilities
- Better career prospects
- Low costs and high standard of living
- Provide students opportunities to grow culturally as well as academically

Programme Origin

On 25th January 2018, at the 25th anniversary of the ASEAN-India Commemorative Summit in New Delhi, the Prime Minister of India Shri Narendra Modi, in the presence of the leaders of all 10 ASEAN Member States announced the Doctoral fellowship in India for ASEAN.

Under this Programme, 1000 fellowships will be provided to ASEAN citizens to pursue an integrated Ph.D. at the prestigious Indian Institute of Technology of their choice.

Selection Procedure

- Apply online on our portal: <https://asean-iit.in/>
- Select the IIT of your preference and the specific programme/area while filling the online application
- Each IIT one applies to, follows its respective admission process consisting of an application screening, shortlisting, and possible online interview
- The final consolidated results based on the preferences in your application are reported on the portal

Criteria for Selection

- Academic score Requirement = 6/10 or 60% (calculated proportionally for other scales)
- English Test Requirement: No English Language Certification is required
- Minimum No. of Recommendation letters: 2 recommendation letters

Satisfying the eligibility criteria guarantees neither interview nor admission. For additional eligibility criteria, please check the individual IIT's preview page under the "Explore IITs" tab on the webpage.

Application Deadline
15 April 2022
